Education

NMIMS University 2021 – 2025
Bachelor of Technology in Artificial Intelligence (Dean's List), CGPA: 3.8/4 *Mumbai, MH*

Experience

Deepnote Nov 2025 – Present
Technical Writer *Remote (Prague, Czech Republic)*

- Own a growing series of comparison and alternatives pages, shaping editorial voice, positioning, and SEO structure for how Deepnote is framed across the notebook and data tooling landscape
- Write long-form technical articles on notebook workflows, data analysis, and the Jupyter ecosystem, including a deep dive on how adverse drug events ripple through pharma markets
- Contribute to the open-source documentation, shipping merged PRs that sharpen the PDF export guide and notebook-conversion workflows with clearer walkthroughs and visual references
- Drive product discoverability across developer directories; dogfood the platform to build notebooks, templates, and interactive Explore apps, reporting bugs surfaced through real-world use

marimo.io Jan 2025 – Aug 2025
Intern | AI/ML, Developer Advocacy & Relations *Remote (SF, United States)*

- Drove platform adoption through development, community and partnerships; contributed 37+ merged PRs spanning the snippets system, the mo.image_compare() widget, and Windows-specific fixes
- Created 20+ interactive educational notebooks; launched Deep-ML integration via deepml-notebooks; contributed marimo notebook usage to Hugging Face course materials; added marimo to CNCF landscape
- Led a UCSD workshop on NBA data analysis and a hands-on session at NMIMS; represented marimo at PyCon India and IndiaFOSS booths
- Initiated Streamlit/Jupyter migration conversations with engineering teams

Projects

CocoIndex OSS | *Python, Rust, Data Pipelines, AI/ML*

- Contributed 28+ merged PRs to the incremental data transformation framework: built ChromaDB and zvec target connectors, a structured error system with host exception tunneling across the Rust core, and a logging migration to the tracing crate
- Proposed and shipped the link-checking CI pipeline and prek migration end to end; filed 11 roadmap-shaping issues and presented CocoIndex at Rust Delhi Meetup

marimo Learn OSS | *Python, Interactive Notebooks, WASM, Educational Content*

- Spearheaded development of 50+ interactive educational notebooks across Python fundamentals, probability theory and linear algebra; launched a comprehensive probability series based on *Stanford CS109* with 20+ interactive notebooks
- Established multi-platform collaboration with GroundZeroAI for Linear Algebra course; achieved 320+ GitHub stars; launched landing page for quick WASM notebook previews

Deep-ML OSS | *Python, HTML, Interactive Notebooks, ML Algorithms*

- 12+ merged algorithm implementations spanning activation functions (SELU, Swish, Softplus, PReLU, ELU), regression (Ridge, Single-Neuron), and classification metrics (F-score, Confusion Matrix, K-Means); architected the interactive marimo learning tab for HTML-WASM notebook deployments

Community & Volunteering

Write the Docs India | *Organizer, Devroom Manager*

- Leading the revival of the India chapter; pitched and co-ran the Documentation & Technical Writing devroom at IndiaFOSS 2026, the chapter's first in-person event
- Built the chapter website and wrote the devroom recap to carry the momentum forward; gave a talk on treating docs restructuring as a refactor

SciPy India | *Co-organizer*

- Co-organizing SciPy India 2026 at IIT Madras; ran joint meetups with Rust Delhi and BangPypers

Technical Skills

Core stack: Python, Rust, TypeScript, SQL, HTML/CSS, Markdown, LaTeX
Frameworks & Libraries: FastAPI, Flask, React, Next.js, PyTorch, Transformers, NumPy, Pandas, Polars, Plotly
Writing & Docs: Technical writing, docs-as-code, SEO content strategy, editorial review, Hygraph CMS
Dev-tools & Interests: Git, CI/CD, Jupyter stack, marimo, WASM, FOSS, Dev Advocacy/Relations, Community Building
